

How to set up new E mail account on your iPhone 4

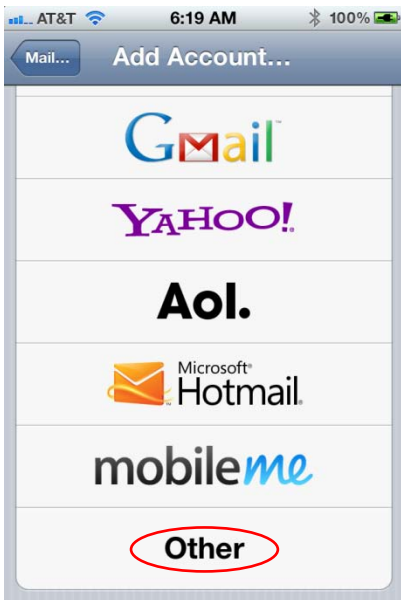

Select the Settings button

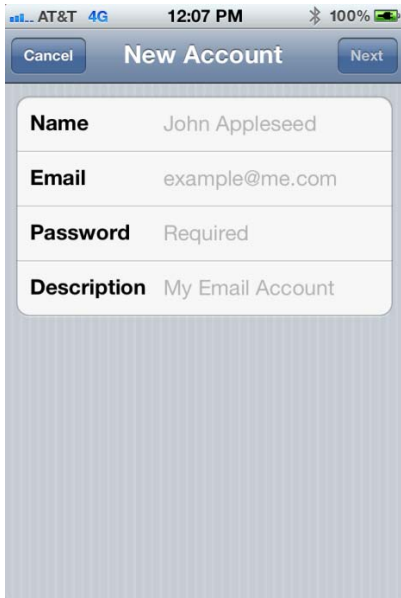

Mail, Contacts, Calendars

Add Account...

Other

Add your name
youremail@notarysociety.com *
Password for your email account**
Any description you like

*If you selected a different domain for your website such as Qualified Notary.com, RedCarpetNotary.com or Pen2PaperNotary.com, replace "notarysociety.com" with your domain choice.

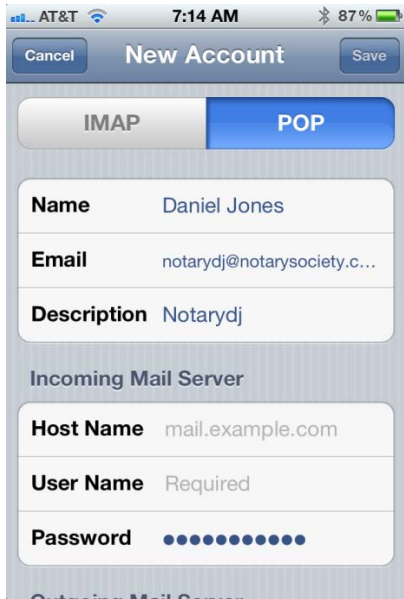

**Password you used when you set up your email account.

Domain names are not case sensitive. Caps are used here for readability only.

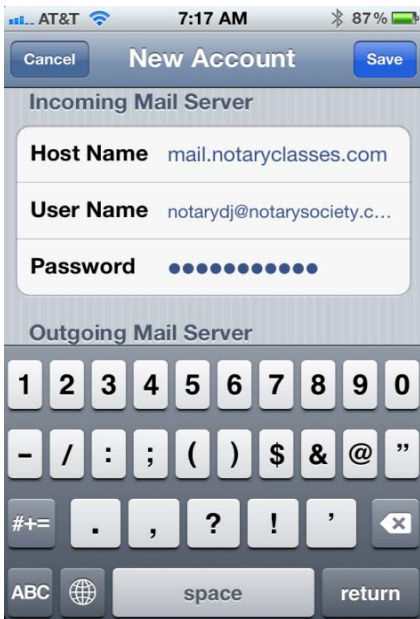

Change from IMAP to POP*

*If you do not make this change your email will not work!

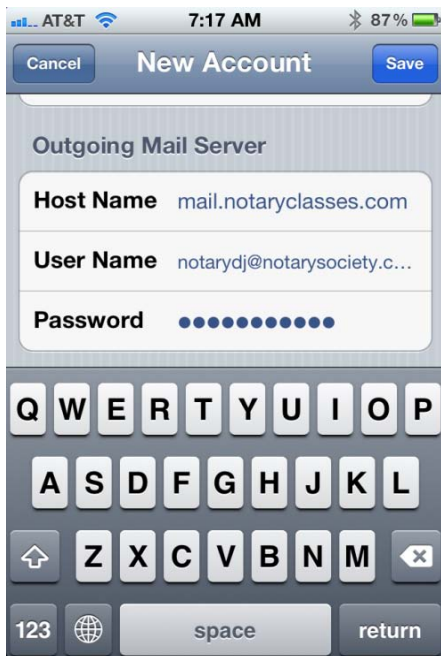

Changed to POP

Incoming Mail Server Settings

- Hostname:** Mail.notaryclasses.com
- User Name:** Your full email address
Example: notarydj@notarysociety.com
- Password:** Your password you used when you set up your website.

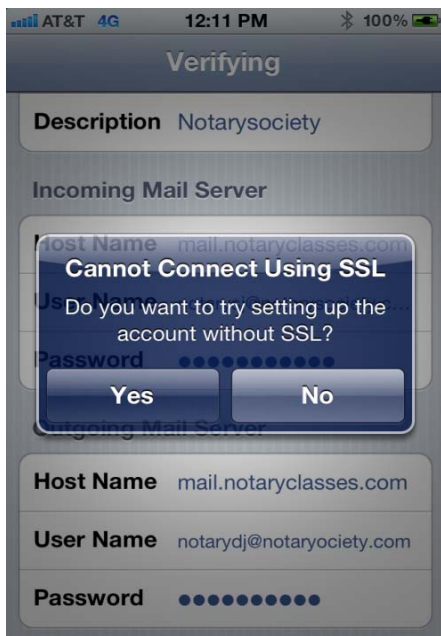

Outgoing Mail Server Settings

Hostname: Mail.notaryclasses.com

User Name: Your full email address

Example: notarydj@notarysociety.com

Password: Your password you used when you set up your website.

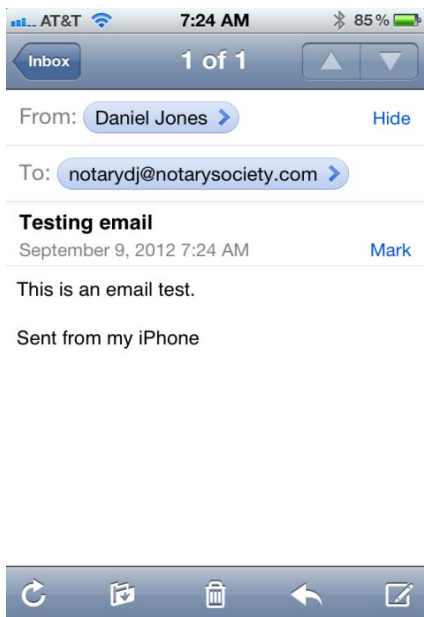

SSL Message

SSL refers to Secure Socket Layer Encryption. If your iPhone displays this message, you will need to select "Yes" to continue.

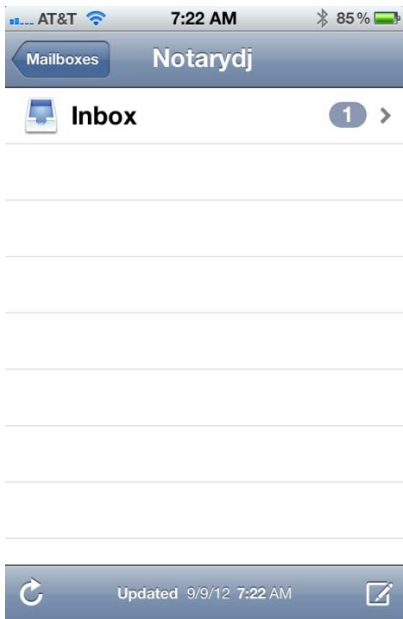

New account has been added

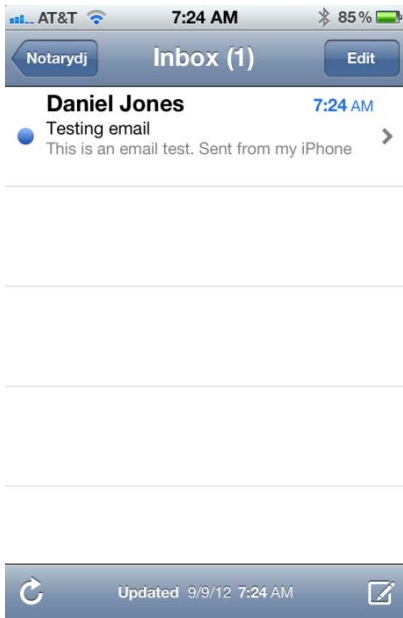

Testing in-coming emails

Send an email to your new account from another email account. If you have one already in your iPhone, use that or send an email from any computer. You can also have someone else send you an email. Be sure to remember your full email address:
username@yourselecteddomain.com
Example: notarydj@notarysociety.com

Check your new email

Inbox

This email is from the test just completed.
Good news! Incoming is working perfectly!

Check your sent folder

You can check your sent folder or just check the recipient email. It may take a minute or two to arrive. Checking sent email ensures that your mail was successfully sent from your iPhone.

Email received!

I am checking my email from a different account on iPhone and can see that I received my email from the new account just fine!

Congratulations!
